

Toxin name:

| |
|--|
| |
|--|

PI:

| |
|--|
| |
|--|

Department/Lab/Center:

| |
|--|
| |
|--|

Storage location:

| |
|--|
| |
|--|

Stock concentration in mM

| |
|--|
| |
|--|

Toxin molecular weight (g/mole)

| |
|--|
| |
|--|

| Date | Name | total quantity in mg | # vials | volume used today (in ul) | # vials used | # vials remaining | total quantity remaining in mg |
|------|------|----------------------|---------|---------------------------|--------------|-------------------|--------------------------------|

| | | | | | | | |

If using EXCEL:

orange cells: Need to fill out every time using a toxin

light blue cells: Fill out once when a stock is made. The rest of the time it will be calculated.

light green cells :Calculates by itself each time, don't fill out
